## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 22-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Omarini [Pat. No. 5,404,798] in view of Lang et al [Pat. No. 5,039,535].  
  
Omarini teaches a method of cooking by placing food on a circular, rotatable support member (Figure 1, 6; column 3, lines 3-15), a heating chamber which covers only a portion of the support member and defined by upper and lower housings (Figure 1, #1, 11, & 15), heating members (Figure 3, 3; column 2, line 35), and replacing the support member (column 2, line 53). Omarini does not teach placing a pizza over the axis of rotation. Lang et al teach a method of cooking pizza by centering it on a rotatable support member (column 8, line 57; column 6, line 57). It would have been obvious to one of ordinary skill in the art to cook a centered pizza in the invention of Omarini, in view of Lang et al, since both are directed to methods of cooking food in rotatable devices, since Omarini teaches cooking food containing sauces, bread, vegetables and cheese (column 3, lines 40-43), since pizza was commonly made from these components, and since pizza was commonly cooked by centering it on a rotatable surface as shown by Lang et al.

***Response to Arguments***

3. Applicant's arguments with respect to claims 22-23 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
